

# PHONE / TABLET WIFI CONFIGURATION

Go to **Settings** on your device > Then **Wireless settings**. Ensure **Wi-Fi is ON**.

Connect to **Chuka\_WIFI**. Next put your details (username and password). **Username** put it in the **Identity field**. Leave all other fields as they are.

Enable '**Show Advanced Options**' to configure proxy settings. Proxy settings should be set as **Manual**. Then put the **proxy hostname 192.168.0.1** and **proxy port 8080**. CONNECT.

ALL DONE!!
